# Glossary |

- **ath (All-Time High):**  
The highest historical price reached by the cryptocurrency.
- **ath\_change\_percentage:**  
The percentage change from the all-time high price to the current price.
- **ath\_date:**  
The date when the cryptocurrency reached its all-time high price.
- **atl (All-Time Low):**  
The lowest historical price reached by the cryptocurrency.
- **atl\_change\_percentage:**  
The percentage change from the all-time low price to the current price.
- **atl\_date:**  
The date when the cryptocurrency reached its all-time low price.
- **circulating\_supply:**  
The number of coins currently in circulation for the cryptocurrency.
- **current\_price:**  
The current price of the cryptocurrency in the selected currency (in your case, EUR).
- **fully\_diluted\_valuation:**  
The total valuation of the cryptocurrency if all possible coins were issued.
- **high\_24h:**  
The highest price reached by the cryptocurrency in the last 24 hours.
- **id:**  
The unique identifier of the cryptocurrency (usually in text format).
- **image:**  
URL of the cryptocurrency's image or logo.
- **last\_updated:**  
The last date and time the data was updated.
- **low\_24h:**  
The lowest price reached by the cryptocurrency in the last 24 hours.
- **market\_cap:**  
The current market capitalization (current price multiplied by the circulating supply).

- **market\_cap\_change\_24h:**  
The change in market capitalization over the last 24 hours.
- **market\_cap\_change\_percentage\_24h:**  
The percentage change in market capitalization over the last 24 hours.
- **market\_cap\_rank:**  
The ranking of the cryptocurrency based on its market capitalization compared to other cryptocurrencies.
- **max\_supply:**  
The maximum number of coins that will be available for the cryptocurrency.
- **name:**  
The name of the cryptocurrency.
- **price\_change\_24h:**  
The change in the price of the cryptocurrency over the last 24 hours.
- **price\_change\_percentage\_24h:**  
The percentage change in the price of the cryptocurrency over the last 24 hours.
- **roi:**  
The "Return on Investment". This field sometimes contains subfields indicating the expected ROI.
- **symbol:**  
The symbol or abbreviation of the cryptocurrency (e.g., BTC for Bitcoin).
- **total\_supply:**  
The total number of coins currently issued.
- **total\_volume:**  
The total transaction volume over the last 24 hours.
